The purpose of this letter is to respectfully request that you denounce and disassociate yourself from the International Transformation Network, Hawaii Transformation, Transformation Hawaii, Harvest Evangelists, Mr. Ed Silvos, and any other of his related organizations and associates. We have learned that Mr. Silvos's organizations are closely associated with the President Yowerie and First Lady Janet Museveni of Uganda, a nation currently considering legislation to execute individuals affected by HIV and aids, incarcerate homosexuals, and require citizens to report other citizens of that country that are suspected of being homosexual.

I am saddened and offended by your appearance in videos showing you praying with Uganda's first lady, participating in seminars, contributing to editorials for these organizations, and otherwise supporting and furthering the goals of Mr. Silvos and his organizations.

For your reference and convenience I have posted video and editorials relating to the above at <http://carrollcox.com/show042610.htm>
